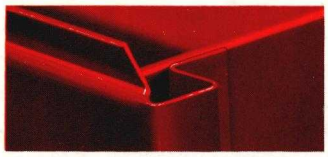
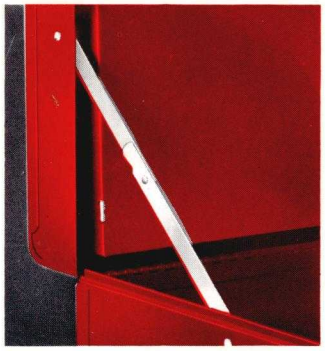
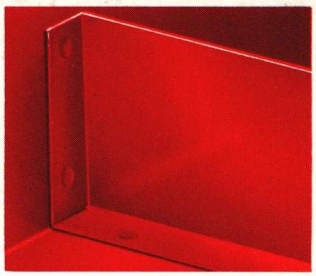
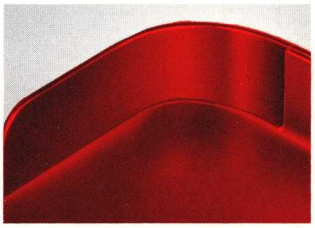
50 CENTS









Yorktown's reputation for quality is backed by the quality features that every cabinet employs. Every part of a Yorktown cabinet, from the welded heavy gauge steel shell to the heavy duty casters, is designed, tested and proven to withstand service far greater than years of normal usage. Never has there been a more complete selection of cabinets available with the quality that Yorktown workmanship has produced.

by YORKTOWN

GUARANTEED FOR LIFE

The ever expanding demand for more tools "on the job" has prompted the development of these new units. A new design concept provides the answer to MORE storage and MORE drawer depth for larger tools. Welded heavy gauge steel construction, coupled with this new design, makes these cabinets stronger than ever before possible. So strong and durable we guarantee them for life.

NEW FULL-DEPTH DESIGN

MORE STORAGE AREA FOR TOOLS AND EQUIPMENT

GUARANTEED FOR LIFE

RUGGED . . . these units are built to take years of hard usage from heavy equipment

CABINETS

These cabinets are constructed of heavy 16 and 18 gauge steel and are welded to form a solid one piece unit. Drawer suspensions are cadmium plated and have limit stops to prevent pull out. Large drawers are dual-suspended to carry heavy loads and still roll smoothly. Cabinet cover is double-constructed for added strength and is equipped with a heavy duty lock that secures cover at BOTH sides. Two skid rails are welded to the cabinet base for added strength and protection.

ROLLAWAYS

The most rugged and spacious rollaways available. Heavy 16 gauge welded steel construction forms a one piece unit. All large drawers are dual suspended to take extra heavy loads. Drawer glides are cadmium plated with limit stops to prevent pullout. The model 009 is equipped with a heavy duty lock that locks all drawers at the same time. The model 006 has two heavy duty locks, both key alike one for the drawers and one for the compartment door. They roll freely on self lubricating 5" wheels and heavy duty cadmium plated ball bearing casters. Two casters are fixed and two are swivel with toe locks. The rollaway bottom is reinforced by two channel reinforcements welded in place.

VERTICAL CABINETS

MOUNT EASILY TO THE SIDE OF ANY ROLLAWAY . . . OR TO A WALL

Mounts wherever an extremely large storage area is needed, either on a wall or on an extra heavy duty rollaway unit. This new cabinet allows the storage of long heavy tools and equipment and makes them immediately accessible **on the job.** Heavy gauge steel construction plus a welded full length piano hinge and heavy duty lock assures the finest protection. Cabinet can be mounted on either side of a rollaway unit, over a work bench or near machinery to permit fast access to tools, plus lock and key protection. Cabinet package includes mounting screws, instructions and 30 tool hangers.

YORKTOWN

ROLLAWAY

On a rollaway, this unit provides extra space and convenience for larger tools not storable in a rollaway. When mounted on a wall or near machinery, it permits fast access to tools, as well as lock and key protection. Each cabinet has two peg board panels with 30 hangers, full length hinge and heavy duty lock. Available in two sizes.
